

# The **GOLDEN TICKET** Movie

---

Dear Prospect First Name,

The Golden Ticket Movie is a remarkable DVD that has been helping average people like us from all across the Nation, earn additional income in their spare time... **and you need to know about it.**

There are two great ways to generate a lot of money: Either create something the world really needs... Or be the first to market that creation.

Well I've found a company that has done both (and they've got the second part so tightly wrapped up, they'll have ZERO competition for at least 5 years)! This company has just created and released to the public, the first **Anti-Aging Tonic** that works on a cellular level that is **proven to work!!** And since the CEO bought the worlds supply for the next 10 years of the main ingredient, and has several patents pending on it, we're very excited about what the future will bring us and *anyone else involved!*

In a society hungry for the secret to staying young... having a proven, exclusive product like this means a really great opportunity **for us all!**

The Movie does all the explaining for me, so I never have to sell products or do presentations! The story you'll hear will answer three common questions most people have about generating extra money:

What is it?

What will I have to do?

How much can I earn?

**Take the following steps to generating income:**

- 1. Watch all 3 parts of the Movie (to get a detailed plan of action on how we will succeed)!**
- 2. Review the Vivix brochure (but only if you want to live 25 extra years)!**
- 3. Call me as soon as possible so any questions can be answered, and if you like, I can introduce you to one of the creators of the movie!!**

So go ahead and plug in the DVD, sit back, turn up the volume, grab some popcorn and kick up your feet. This is a simple plan using a simple tool and at this point – simply review it ;-)

**Watch this movie as soon as possible!** I'm always looking for someone new to show this movie too who's interested in earning a great part-time income (or more)... and I'd love to introduce you to one of the Golden Ticket Movie creators!

Sincerely,
